

# CORONA DAY NURSERY, IKOYI

## END OF 3RD TERM NEWS

### Dear Parents,

We have successfully come to the end of an exciting school year. I thank the Almighty God for preserving our lives. The year was full of different interesting activities and pupils, teachers and parents worked well to achieve this success we are celebrating today.

I wish to thank all pupils for the success they have achieved in different areas especially the Nursery 2 pupils. They have worked so hard and we are really proud of them.

The reading programme was a huge success and I hope parents will continue to encourage their children to read during the holiday. Support them, provide interesting books and let them read aloud to you during your spare time. Please do not let this initiative die.

I want to thank all the grand parents who took time off their very busy schedule to stop by school to lend a helping hand.

Class mums and dads—you were fantastic! Words are not enough to appreciate your support throughout the session. I say may God bless and reward you. I wish to appreciate those parents who participated in our activities and supported us in no small measure this term. You are blessed!

I remember the little Efik dancers, the Bata dancers, the Taekwondo activities and how all of this added colour to our graduation ceremony.

I thank God for the rain that He released to grace the occasion. They were showers of blessings indeed!

As the Nursery 2 pupils move on to the primary, I wish them God's speed. I am sure they will thrive- really sure .

Do have a wonderful summer and for those of you returning in September, see you on the 12th of the same month.

May God richly bless you all!

Sincerely,

Mrs. Esther Abakasanga
